Buddy Ives

Beloved little dog (18 years old) lived at 4 Silver Crest with Ruth (and the late Don) Ives. Buddy became the fur baby of Ruth and Don in Michigan in 2006. He was 3 years old when the Ives came to Lake Hammock Village.

Buddy loved to ride in "his" golf cart and enjoyed meandering through the woods. He passed away on September 23, 2024.

Sadly missed,

Old Wounds

Do you have a hole in your HEART? Perhaps the wound is old...and you're angry. Or perhaps the wound is fresh...and you're hurt. Part of you is broken, and the other part is bitter. Part of you wants to cry, and the other part of you wants to fight. The tears you cry are hot because they come from your heart, and there is a fire burning in your heart. It's the fire of anger. It's blazing. It's consuming. Its flame leaps up under a steaming pot of revenge. And you are left with a decision: "Do I put the fire out or heat it up? Do I get over it or get even? Do I release it or resent it? Do I let my hurts heal, or do I let hurt turn into hate?" Are you allowing your hurts to turn into hates? If so, ask yourself: Is it working? Has your hatred done you any good? Has your resentment brought you any relief, any peace? Has it granted you any joy? Allow the hole in your heart to heal. (Max Lucado)

For God's answer to the above dilemma, see **MATTHEW 18:23-35**

Forgiveness can be very difficult for many of us. But without it our lives can be lonely, joys are fewer, and hopes are more difficult to achieve. Forgiveness is like being in the eye of a Hurricane, it provides calmness, with low pressure. Being outside of it can be very deadly with many hazards. Like being in the eye of a hurricane, practicing forgiveness keeps us in a safe place. Remember, forgiveness benefits the forgiver more than the person being forgiven.

Folks can submit an individual name along with the reason they think that person should be volunteer of the year. These forms will be collected until November 5th. The names will be tallied, and the nominees will be announced at the November HOA meeting. The top 4 nominees will be placed on a ballot for folks to vote on at the November and December HOA meetings (remember to only vote once). The winner will be announced at the January HOA meeting and will have their name added to the volunteer of the year plaque, receive \$100 and admission along with their significant other to all HOA events for the coming year

SPOTLIGHT ON WATER AEROBICS

Submitted by Linda Casinover

Fun and Good for You!

Water aerobics is a great way to get and keep in shape, from seniors to pregnant women, men and women alike!

Go at your own pace!

Afraid of the water? Don't worry. There is a shallow end at the pool, floating devices and others around for your safety. Plus, the water is heated!

In pain? Aquatic exercises reduce pain and relieves the symptoms of arthritis without the joint pain associated with other exercises. When we age our bones and muscles get weaker. These exercises help with that too. Water offers resistance without weights to help strengthen your body.

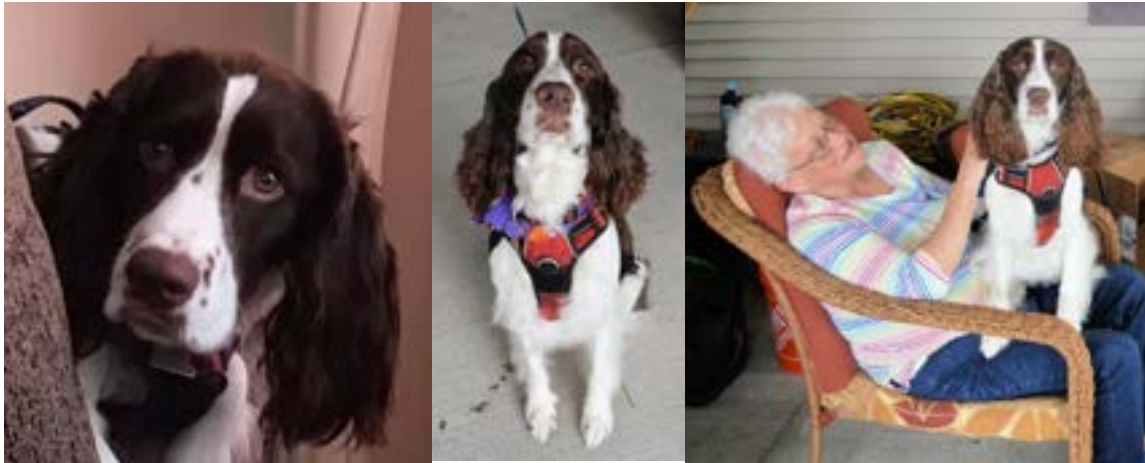

Afraid to fall? Aquatic exercises help with your balance.

Trouble going up the steps? Out of breath? Water aerobics can help with that too! These exercises work on your heart and lungs, improves your energy and helps manage your weight.

Why not give it a try? Come down to the clubhouse any Monday, Wednesday or Friday morning when it is 72 degrees or above. Aerobics start at 9:15 AM sharp!

MAYZIE

By: Linda Casinover

Mayzie is a well-loved English Springer Spaniel who weighs about 40 lbs. She will be 6 years old on November 15th and originally comes from Georgia.

After researching different dogs, including a visit to a breeder in Georgia, her male human decided that a female puppy would be best for him and his wife. The females of this breed are smaller and tend to be about 40 lbs. which satisfies the rules at LHV.

Once decided, there were no puppies to be found in Florida, but luckily the Georgia breeder kept in touch and sent photos of new puppies for them to choose from. It only took a single picture of her for them to fall in love.

Naming her was easy. Her humans are big fans of Dr. Seuss!

She came here in January 2018 and even though her male human only had a few months with her, it was more than enough time for her to become a lapdog.

Mayzie is smart and even after just a small amount of training, listens to commands. With a gentle voice, her human simply says “sit”, or “look”, or my favorite, “twirl and plop” to sit in the golf cart for her minimum of twice a day run through the trails.

She is not a big eater, preferring to empty her bowl by grazing all day, although she does love her kennel treats of Blue Buffalo when it is bedtime or time for her human to leave the house for a while.

Mayzie also loves her Chewy black and white stuffed toy, but especially loves crunching on empty water bottles. She even has a “Princess Chair” on the porch that she loves to sit on.

Mayzie is well known at LHV, and she loves everyone she meets. Be sure to wish her a very happy birthday this month!

Mayzie lives with her human, Pat Gagne of 98 Reineke Rd.

What is an Angel card?

The Angel Card project is an online group whose motto is:

Sending smiles across the miles, one card at a time.

Requests for cards are made thru members of the group. We send cards for all occasions to encourage, offer sympathy or birthday greetings. Christmas is our biggest outreach of the year. You can't just get cards there has to be a "need" of some kind.

Won't you help make someone's holiday extra bright by sending a card?

Cards are supplied. Just bring your pen.

It is not necessary to participate in the cookie exchange. You can still come to sign cards.

Hurricane Season 2024:

NOVEMBER - MONTH SIX!

Hurricane Season Winding DownBut... Be on Guard for November Surprises!

by

Dave Graham

HOA Emergency Preparedness Team for November 2024 Gator Tales

For the past several years we have been writing about the possibility of hurricanes and encouraging everyone to prepare. **Hurricane Milton reminded us of the dangers we face every day during our six month hurricane season!**

Our Team has worked very hard to keep focusing on preparation. **Hurricane Milton** challenged all of us. **Milton came on QUICK and hit us HARD!** And we came through it well. We are sorry for those who suffered damage to their homes. We are thankful that there were no serious injuries. Overall, we came through well.

However, as of the date of submission of this article (October 20th) **there are still 41 days left in hurricane season! There is still time to have another storm and we need to continue being vigilant.**

Remember, on November 10th of 2022 Hurricane Nicole arrived here, an unusual late season storm.

At that time we were lucky and only got a small part of the storm.

Remember, Continue to:

- * Stay alert – watch weather forecasts for possible storm danger
- * Keep your hurricane supplies handy. Don't put them away just yet!
- * Watch for Team Alerts on the LHV Facebook Page
- * Utilize the information the Team has provided
- * Think about what choices you should make if a hurricane threatens us.
- * Contact a Team member if any questions

As we stated, anything can happen, and the unexpected often does! In this time of changing weather patterns and unusual activity we need to be watchful and prepared during this still dangerous time of year!

We thank the residents who took precautions and were prepared for Milton. You are all good neighbors, and our Team is an extension of our network of neighbors and friends helping each other.

**For information or questions, contact any
Team Member or e-mail, text, or call Dave
Graham at (603) 915-1368 or**

Hurricane Milton Info

Milton formed from a tropical disturbance that originated in the western Caribbean Sea and consolidated in the Bay of Campeche on October 5. Gradual intensification occurred as it slowly moved eastward, becoming a hurricane early on October 7. Later that day, Milton underwent explosive intensification and became a Category 5 hurricane with winds of 180 mph (285 km/h). At peak intensity, it had a pressure of 897 millibars (26.49 inHg), making it the fifth-most intense Atlantic hurricane on record. Milton fluctuated in intensity after an eye wall replacement cycle, re-intensifying into a Category 5 hurricane the following day. Increasing wind shear caused the hurricane to weaken as it turned northeast towards Florida, falling to Category 3 status before making landfall near Siesta Key late on October 9. Afterwards, Milton rapidly weakened as it moved across the state into the Atlantic Ocean, and became extratropical on October 10 as it became embedded within a frontal zone. The remnants gradually weakened and passed near the island of Bermuda before dissipating on October 12. As of 10/17, 25 deaths have been reported due to Milton.

At least 27 confirmed tornadoes touched down in Florida before the storm made landfall as a result of a tornado outbreak that occurred between October 8–9, focused on the Florida Heartland, the Treasure Coast and the Space Coast.¹

At Lake Hammock Village we received 8.6" of rain, and the highest recorded wind gust was 79 mph at 10:09pm on 10/10/2024. About 6 residences received damage to carports and siding and the screen fence around the lift station was damaged. Jerry Smith

Hurricane Milton

As we recover from Hurricane Milton, I am reminded about the aftermath of other hurricanes that have caused major damages as they tore through Polk County.

Without fail, every single time, the citizens of this county stepped-up to help their neighbors and other members of the community.

We often hear about the extraordinary work by law enforcement, fire rescue, medical workers, and linemen, but in times of crisis, there is a lot of really good people doing amazing things around here.

I'm not saying that this kind of benevolence isn't seen elsewhere across this fantastic nation of ours, but I will say that the extent of altruism that I have seen around here is truly impressive.

Many times, the first person to lend a helping hand is someone who has lost everything-they literally put the needs of others before their own needs.

I have seen it many times where deputies were out working in a storm, assisting people in need, with the knowledge that their own home has already been destroyed by the storm. I am encouraged by that kind of dedication and service. And I am equally impressed by the same type of actions exhibited by teachers, sales clerks, custodians...people from all walks of life.

I grew up in Polk County... I have lived here all of my life, with more than fifty years of serving the people at the Polk County Sheriff's Office. I have seen a level of humanity and compassion here that you don't often see in a lot of other places. Other people who have lived here all of their lives might tell you the same thing.

For all of you who only recently moved to Polk County from another state, I'm confident you will see exactly what I am talking about, if you haven't already.

Keep being awesome, Polk County!

LOOKED UNDER YOUR MOBILE HOME LATELY?

Missing or torn insulation and vapor barrier can allow moisture, mold and mildew to build up, and provide access to insects and rodents into your home!

Call today for a FREE Under Home Inspection

To our valued customers,

During the current times we wanted to let you know that we are taking as many precautions as we can to ensure not only our workers safety, but yours as well. We check workers temperatures each morning and have limited the amount of contact our crews have with each other. Our crews work in Tyvek suits with respirators which helps to ensure your safety as well as theirs.

As a company, we want your business and there is no need for any contact if you so choose. Our business is deemed an "Essential Business" and we are here for you when you need us. You can schedule your inspection by calling 1-800-681-3772.

Wishing you good health and safety,
The Florida Anchor & Barrier Team
